CAREER OBJECTIVE

Detail-oriented graduate of University of Colorado at Boulder with a Bachelor of Arts in Computer Science. Aiming to leverage a proven knowledge of Computer Science and Software Engineering skills to successfully fill the role at your company. Frequently praised as proactive by my peers and employers, I can be relied upon to help your company achieve its goals.

PROJECTS

GroupMe/Spotify Bot - Sole Developer - View Github
Python, Spotify API, GroupMe API, Raspberry Pi, AWS EC2

- Program that listens to the social app, GroupMe, chats and auto-adds any Spotify link from the group chat into a collective Spotify playlist.
- Creates an area where people can easily share and discuss music. Acquired a group of over 50 people and created a playlist with over 500 songs and 30 hours of music.

Wifiology - Contributor - View Github
Python, SQL, Git

- System for capturing and analyzing 802.11 traffic to gain insight of surrounding WiFi data.
- Spearheaded and brainstormed the initial idea for the project which was a device that could analyze WiFi traffic in libraries and stream data to an app that allowed users to find the best areas to sit to gain the best signal.
- Helped implement the data collection using Python and SQL.

PROFESSIONAL EXPERIENCE

Box Office Attendant
Z2 Entertainment, BOULDER, CO / Jan 2020 – Mar 2020

- Assist customers in a friendly and professional manner in buying event tickets or troubleshooting ticket purchases.
- Provide customers with information on all events happening at either of the Z2 operated theaters.

Street Team Coordinator
Z2 Entertainment, BOULDER, CO / Jan 2019 – Nov 2019

- Managed a team of over 30 street team members in all major cities of Colorado to promote all Z2 events by postering, flyering, online promoting, and other grass root forms of marketing.
- Created relationships with local businesses in order to promote their businesses and started an in-show marketing tactic where a booth was set up at specific shows and ran contests for events.
